Lr³ Citizen Science Adventures: Explore, Discover, Protect

Welcome to *Lr³ Citizen Science Adventures*, where your travel experience isn't just about exploring—it's about making a difference. Set against the backdrop of the stunning **Lighthouse Reef Atoll**, a **living museum of nature and science**, our adventures blend adventure travel with real conservation action. Whether you're kayaking through mangrove tunnels, free-diving in search of conchs, spotting sharks on a snorkel, or mapping turtle tracks on the sand, you'll actively contribute to marine and wildlife research.

Most visitors to Lighthouse Reef simply snorkel, dive, or paddle—but **we turn these activities into immersive citizen science experiences**. From **Wendy's Lab at Lr³**, we offer **customizable, guided, and self-guided trips**, letting you choose your pace. Whether you're solo, with friends, or bringing the whole family, **you're in charge of your time**.

Our adventure lineup has something for everyone—from adrenaline-packed **Shark Spotting** dives to serene **Hummingbird Haven** walks, from nighttime **Bat Patrols** to hands-on **Coral Restoration**. You can **kayak through pirate lore**, **snorkel with stingrays**, **hunt for octopus**, or **learn survival skills in our off-grid island lab**.

Lr³ is more than an escape—it's an **outpost for discovery, conservation, and adventure**. Come for the nature, stay for the science, and leave with a **deeper connection to the ocean and its wild wonders**.

Lr³ Citizen Science Adventures are a **special benefit exclusively for our donors**, offering a rare opportunity to experience Lighthouse Reef Atoll in a meaningful and immersive way. **We are not a hotel, nor do we sell accommodations or meals**—instead, Lr³ is a **private research outpost** dedicated to conservation. As a donor, **you become our personal guest**, gaining access to unique scientific adventures that deepen your connection to this incredible ecosystem.

Your **donor level determines the length of your stay** and how many adventures you can embark on during your visit. Whether you're here for a short escape or an extended expedition, your experience is customized to match your interests, blending exploration with hands-on conservation efforts. Every moment spent here contributes directly to protecting the reef and its wildlife.

As our guest, **everything you need is provided**—from essential equipment to logistical support—so you can focus on the adventure, the discovery, and the impact you're making.
